

## BIO – Mat Sadler

Mat Sadler is a 20-year veteran in the Information Technology Sector building relationships with businesses, organizations and individuals from coast to coast.

Mat has experience working with companies of all sizes from global organizations to small and medium businesses. Mat has experience in business operations, expansions, M&A's, sales, marketing, HR and executive leadership while managing complete P&L's for public and private companies. Mat also has experience and enjoys creating and running fundraising campaigns while driving corporate sponsorship.

Mat is currently running Sengled Technologies of Canada which is a global LED lighting company that specializes in R&D and Information Technology. Mat has been on the board with Habitat for Humanity on the Sunshine Coast in BC for 3 years as Secretary and Vice Chair and is looking forward to continue giving back to his community.
